Staff Training

Bullying Prevention
Because of the negative outcomes associated with bullying in schools, our district educates students, parents, and school district personnel about what behaviors constitute prohibited bullying.

Child Abuse Prevention
Our district is proactive in educating our faculty, staff, parents and guardians on what bullying is, the dynamics of bullying, and to share systematic interventions to help eradicate bullying in our schools. It also contains a section on cyber-bullying.

Children's Internet Protection Act
Our district educates staff on how students are exposed to media through digital technology, the impact this exposure has on them, how to incorporate media literacy in the classroom, the risks that accompany internet activities, and shares practical ways for staff to teach students positive behaviors and avoid these risks. In addition, our training helps staff initiate and lead classroom discussions on the use of technology and internet safety, and address student questions and concerns.

COVID-19
COVID-19 poses a serious public health risk and there is currently no vaccine to prevent the illness. This two-course curriculum examines health and safety issues related to COVID-19 and provides important tips and guidelines to follow in order to protect yourself and others and what to do if you are sick. Important topics include, but are not limited to: how COVID-19 spreads; how to clean your hands properly and why doing so is important.

**Title XI**

Enacted in 1972, Title IX is a Federal civil-rights law that protects *everyone* from being discriminated against on the basis of sex in educational programs and activities. Although Title IX has improved educational access for millions of students, sexual harassment continues to be a widespread problem. In May of 2020, the U.S. Department of Education (DOE) updated its guidelines for how schools must respond to sexual-harassment claims. The guidelines, which are effective August 14, 2020, apply to all types of sexual harassment, including student against student, student against school employee, school employee against school employee, and school employee against student. One of the new guidelines most important changes is that all employees, without delay, must report possible acts of sexual harassment to a Title IX coordinator. This course will: define sexual harassment; explain schools’ obligations with regards to sexual-harassment claims under Title IX; and outline Title IX investigative procedures.
